

# Małgorzata Zaremba

FRONT-END DEVELOPER

## PERSONAL INFO

### EMAIL

gosiazaremba2@gmail.com

### PHONE

+48 664 744 741

### GITHUB

<https://github.com/GosiaZaremba/Projects>

### WEBSITE

[www.gosiazaremba.dev](http://www.gosiazaremba.dev)

Enthusiastic beginner front-end developer with basics of JavaScript, React and React Native. I'm currently expanding my skill set with Angular and TypeScript. I am fluent in HTML and CSS. I'm curious, I like to look under the hood and understand the mechanics of how particular technologies work. I am inquisitive and persistent in overcoming challenges. Strong team-player.

## PROJECTS

### Co-creator

Event SignUp

Certificate on completing the project on request.

Responsive multilingual application, responsible for the publication of events (both internal and external), the use of information materials (logo, banner) of the organizer. The application allows you to subscribe to and add them to your favorites list. List of events presented in the form of a list and grid, with the ability to filter by data, locations and keywords. A detailed view, describing the details, a detailed agenda divided into sources, speakers, date and place, including maps, and the created views that appeared in the carousel at the bottom of the page.

### Creator

Handyman

<https://github.com/GosiaZaremba/Handyman>

React Native App for people in need of cleaning, laundry or repair services.

Technologies: React Native, Storybook, Type Script, Atomic Design, React Native Navigation, Jest, React Native Testing Library.

### Creator

Pet Nanny

[https://github.com/GosiaZaremba/Projects/tree/main/React\\_Native/petnanny](https://github.com/GosiaZaremba/Projects/tree/main/React_Native/petnanny)

React Native app created for Android.

For all pet owners, whose pets are a little more demanding in terms of taking care of. With Pet Nanny You will never forget when was the last time You fed, walked, played or gave pills to Your Pet. You can create an account, add Your pets, set a photo of Your pet as an avatar. The app will show You last three records of walks, feeding, playing and giving meds.

### Creator

Guess My Number

[https://github.com/GosiaZaremba/Projects/tree/main/React\\_Native/GuessMyNumber](https://github.com/GosiaZaremba/Projects/tree/main/React_Native/GuessMyNumber)

Simple React Native game app, created with Expo Go library.

Pick a number between 1 and 100 and the app will guess it! You can give hints if Your number is lower or higher than app's guess. When the app finally guesses the right number it will show a screen with how many rounds it took to find Your number.

■ **Co-creator**

Dog Shelter

<https://github.com/infoshareacademy/jfddr6-team-avengersi>

React web application created for volunteers working in the dog shelter. It allows to add dogs to the database and helps take care of them by facilitating communication between different people who care for the same dogs - when the last time the dog was out for a walk, was given medication or food.

For those who are not logged in (potential adopters) there is a list and profiles of dogs for adoption with the most important information.

**WORK HISTORY**

■ **Software Developer Intern**

09.2023 - 03.2024

Sii Poland, Gdańsk

- Was part of a collaborative 6-person team, including developers, a UX specialist, and an architect, to deliver an internal project for event listing and signup.
- Implemented user-friendly interfaces using Angular, PrimeNG, and Figma, resulting in a seamless and visually appealing platform.
- Worked closely with the UX specialist and project architect to ensure alignment with design principles and project goals.
- Contributed to the entire software development lifecycle, delivering a high-quality product that received positive feedback from stakeholders and end-users.
- Gained valuable experience in team collaboration, project management, and practical application of Angular, PrimeNG, and Figma in a real-world setting.

■ **Front-end Intern**

01.2023 - 05.2023

Advanced Tracking, Gdańsk

- Revamped app layout using Sass, JavaScript, HTML/PHP, and Figma to enhance user experience and visual appeal. Collaborated with cross-functional teams to implement design changes, ensuring seamless integration with existing functionalities.
- Played a key role in the modernization of the app, resulting in improved user engagement and a more contemporary design.
- Gained hands-on experience in front-end technologies, including Sass and JavaScript, while working on real-world projects in a small company environment.

■ **Entrepreneurial Experience, Founder and Owner**

11.2018 - 03.2022

Wyczesani Dog Grooming Salon, Gdańsk

■ **Retail Experience - Shop Assistant to Store Manager**
